

REMARKS

This application has been reviewed in light of the Office Action mailed September 19, 2005. Reconsideration of this application in view of the below remarks is respectfully requested. Claims 1-23 are pending in the application with Claims 15-21 having been withdrawn. Of the currently elected claims, Claims 1, 11, 22 and 23 are in independent form. By the present amendment, Claims 11 and 13 are canceled and Claims 12 and 14 are amended. No new subject matter has been introduced by way of the present amendment.

Initially, Applicants thank the Examiner for allowing Claims 1-10 and 22-23 and indicating that Claims 12 and 14 contain patentably distinct subject matter and would be allowable if rewritten in independent form including all the limitations recited in the base claim and any intervening claims.

By the present amendment, Claims 12 and 14 have been placed in independent form including the limitations of independent Claim 11. Accordingly, Applicants respectfully request withdrawal of the objection to Claims 12 and 14.

I. Rejection of Claims 11 and 13 Under 35 U.S.C. §103(a)

Claims 11 and 13 are rejected under 35 U.S.C. §103(a) as allegedly being unpatentably obvious over Kim et al. in view of U.S. Patent No. 6,657,689 issued to Heum-Il Baek (hereinafter "Baek"). In response, Claims 11 and 13 have been canceled, thus rendering the rejection moot.

CONCLUSIONS

In view of the foregoing amendments and remarks, it is respectfully submitted that all claims presently pending in the application, namely, Claims 1-10, 12, 14 and 22-23 are believed to be in condition for allowance and patentably distinguishable over the art of record.

If the Examiner should have any questions concerning this communication or feels that an interview would be helpful, the Examiner is requested to call Applicants' undersigned attorney at the number indicated below.

Respectfully submitted,

Paul J. Esatto, Jr.
